By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.

- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation

from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/.

About This School

Dorsey Moore, CEO/Superintendent

Principal, San Jose Conservation Corps Charter

The San Jose Conservation Corps Charter School (SJCCCS) has been offering critical safety net educational services to the area's opportunity youth for just over 20 years, serving young adults. Today, approximately 400 young adults, ages 17 ½ to 27, come through our doors each year. Some come and meet their goal of completing their high school diploma, others find they are not ready for the commitment and choose to come back another day. What is true of all our students, however, is they come looking for the chance to jump start their futures, to make positive changes in their lives, and find a community that will be welcoming and safe.

SJCCCS has always been an alternative school, at one point meeting the ASAM designation and now as a Dashboard Alternative School Status (DASS) site. This designation allows us to identify and track metrics that reflect the unique, adult population we serve. Students are very often enrolled for only a short time - whether because they only needed a few credits to complete their degree or because one of life's challenges must take precedence over their education. As such, traditional tracking measures of graduation, persistence, and even enrollment are altered and generally do not meet the statewide benchmarks set for traditional schools.

The other aspect that sets SJCCCS apart from even other DASS schools, is its close attention to its "whole person" approach and utilization of intensive support services. This focus stems from the organizational strategic plan by the San Jose Conservation Corps (SJCC) which identifies the path for every corpsmember - whether they are enrolled in only the job training program, only the charter school, or both - as the "corpsmember journey." This path includes helping them stabilize their lives by finding food or housing security, accessing childcare to help with their young children or siblings, or receiving help with transportation so they can show up to work or school on

time, each and every day. It also includes mental health support, which is now offered on site as well as through contracted services. Because SJCCCS has many of these support elements already in place, we are pursuing funding under the community schools model that will help to define and sustain this critical aspect of our school.

We invite the readers of this petition to see beyond the numbers to the students behind them. They are students like:

> ?   a 26-year-old mom of one who takes care of her own mother who faces health concerns. She finally made the time in her life to return to school and complete her diploma. She came back to school after being laid off from the Tesla assembly line alongside several other workers without their high school diploma; she now works closely with our College and Career Counselor in pursuing her passion for auto mechanical engineering.

> ?   an 18-year-old student with a learning disability who has spent most of his life as a transient student in the foster care system. He has learned to advocate for himself and has rediscovered his passion for art, music and travel.

> ?   A 22-year-old who moved around through foster care when she was previously in high school during COVID. She struggled with staying motivated and with her mental health and did not receive the support she needed. Now, she is learning to ask for help and realizing her hopes of going to college and enrolling in trucking school.

School Description and Mission Statement (School Year 2024–25)

The San Jose Conservation Corps + Charter School is develops young adults to create transformational change for our community and our planet.

The San Jose Conservation Corps Charter School (SJCCCS) has been offering critical safety net educational services to the area's opportunity youth for just over 20 years, serving young adults. Today, approximately 400 young adults, ages 17 ½ to 27, come through our doors each year. Some come and meet their goal of completing their high school diploma, others find they are not ready for the commitment and choose to come back another day. What is true of all our students, however, is they come looking for the chance to jump start their futures, to make positive changes in their lives, and find a community that will be welcoming and safe. As a school with Dashboard Alternative School Status (DASS), the school pays close attention to its "whole-person" approach and utilization of intensive support services. These supports help these young adults stabilize their lives so they can be successful in school, attaining their goal of earning their high school diploma.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Preparation and Placement (School Year 2020–21)

Authorization/Assignment	School Number	School Percent	District Number	District Percent	State Number	State Percent
Fully (Preliminary or Clear) Credentialed for Subject and Student Placement (properly assigned)	4.40	80.73%	943.40	83.36%	228366.10	83.12%

Note: The data in this table is based on full-time equivalent (FTE) status. One FTE equals one staff member working full-time; one FTE could also represent two staff members who each work 50 percent of full-time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes assessments for English language arts/literacy [ELA], mathematics, and science for students in the general

education population and the California Alternate Assessment [CAA]. Only eligible students may participate in the administration of the CAA. CAA items are aligned with alternate achievement standards, which are linked with the Common Core Standards [CCSS] or California Next Generation Science Standards [CA NGSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:
    1. Smarter Balanced Summative Assessments and CAA for ELA in grades three through eight and grade eleven.
    2. Smarter Balanced Summative Assessments and CAA for mathematics in grades three through eight and grade eleven.
    3. California Science Test (CAST) and CAA for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- College and Career Ready: The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students taking and completing state-administered assessments Grades Three through Eight and Grade Eleven Percentage of Students Meeting or Exceeding the State Standard

Mathematics (grades 3-8 and 11)					34%	

Note: To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: ELA and Mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced

Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAA divided by the total number of students who participated in both assessments.

Note: To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.
